MEAN GIRLS

Join us for an exciting journey as we bring Mean Girls to the stage!

Designed specifically for middle school and high school students, this production offers an incredible opportunity to grow as a performer while exploring themes that are relevant to today's teens. Through singing, dancing, acting, and teamwork, students will develop valuable performance skills while gaining confidence both on and off the stage.

At its heart, Mean Girls is a story about friendship, belonging, and the choices we make. The show reminds us that our words and actions have consequences, while kindness, respect, empathy, and courage have the power to create positive change. These meaningful lessons make the production both entertaining and thought-provoking.

Participating in this production gives students the opportunity to explore these themes in a creative and supportive environment. As they bring the story to life on stage, they develop confidence, teamwork, communication skills, and emotional awareness. They learn to see situations from different perspectives, fostering greater understanding and compassion for others.

At MTT we strive to create a safe, encouraging environment where students can challenge themselves, discover their potential, and experience the joy of bringing a story to life on stage.

Whether your student dreams of performing professionally or simply loves being part of a creative community, Mean Girls offers an unforgettable experience filled with growth, learning, laughter, and lifelong memories.
